

## Cold Aggression

Happy Days

Cut me,  
Reopen my wounds,  
Pour your salty touch,  
Watch me scream,  
I beg you to stop,

Your words cut me  
Slashing my skin  
And crushing my bones  
Until I am nothing  
Beneath you  
Reduced to Dust,

You said you always cared,  
But when i looked back,  
You where never there,  
Just a gun and a knife,  
Giving me a warming stare,

You told me you wouldn't leave  
You told me you would care  
And I believed your every word  
Now I sit alone and stare at you  
With you laughing in my face  
Coldly...
