Happy Rhodes

Fall

In Out In Out (indistinct voices) All my worries here are through I give all my colour to you This world lost me back two Junes I surrender All hope to youth When the moon comes up I qo down For the first time There's a garden deep Deep in my heart But it's blossomed For the last time Cold is mercy Heavy and sweet Leaves make my blanket, root at my feet Life is only good for the living Time out-ran me But sleep is forgiving When the moon comes up I qo down For the first time There's a garden deep Deep in my heart But it's blossomed For the last time Will the angels cry Over my past Or over my love Bringing him moss To remember me by

Sleep
