

Find Me

Happy Rhodes

Find me, I'm right here floating
I've been here for days, trying to keep the deep
Beneath my feet

Now I can feel you flying overhead
But I'm swallowed in the waves
and I wonder how many days more
You'll search for me
Oh god please find me alive

Lose me in twilight, hopeless
I can't feel my legs
I never noticed before how water's like air
Oh god please find me alive

Find me, I'm right here descending
I feel the weight of it
Light is fading out, as angels kiss my feet

Now all that I can think of, shivering away
Is my fourth birthday
When my guardians threw me away oh love,
You didn't find me
Why didn't you find me alive?
