

Let Me Know Love

Happy Rhodes

I wish you could feel what I do now
Knowing what or why but never how
It's hard making the emotions turn around
The ones you want lost and never found

Ooh can you feel it yet, love?
Let me know when you do, love

You know what it's like to disappoint yourself
You store your confidence on a shelf
You hate the world for its influence on you
You hate your heart for betraying you

Ooh can you feel it yet, love?
Let me know when you do, love

I can't get rid of those ugly things
When peace flies over I miss its wings
I want to be the person in my dreams
I find it harder than it seems

Ooh can you feel it yet, love?
Let me know when you do, love
