

## Let Me Know Love

Happy Rhodes

I wish you could feel what I do now  
Knowing what or why but never how  
It's hard making the emotions turn around  
The ones you want lost and never found

Ooh can you feel it yet, love?  
Let me know when you do, love

You know what it's like to disappoint yourself  
You store your confidence on a shelf  
You hate the world for its influence on you  
You hate your heart for betraying you

Ooh can you feel it yet, love?  
Let me know when you do, love

I can't get rid of those ugly things  
When peace flies over I miss its wings  
I want to be the person in my dreams  
I find it harder than it seems

Ooh can you feel it yet, love?  
Let me know when you do, love
