

# Number One

Happy Rhodes

The day must come for us to begin  
The ways away from the craze we're in

These hands are yours  
Baby to hold in your own  
Now don't let them go  
Don't leave them alone

I'm not a child of righteous birth  
I live my pain for all it's worth

I never wanted  
Baby to bring you down  
To grind and pound  
You into the ground

You are the shine in the hollow of my eye  
And my time whiles by faster with you by my side

Don't want for you to lose the smile  
(shine in the hollow of my eye)  
That keeps my heart apart from the bile

So run within  
Baby fly with my brain  
Enter the realm  
Of mental strain

What comes ahead is something I fear  
(shine in the hollow of my eye)  
I am what you feel and not what you hear

Now love and life and I  
We don't get along  
So help me be strong  
Where I don't belong

You are the shine in the hollow of my eye And oh my  
pain slithered away  
Hey baby, when you asked me to stay

You are the shine in the hollow of my eye  
And my time whiles by faster with you by my side  
Faster with you by my side  
Faster with you by my side  
Faster with you by my side
