

## One Alien

Happy Rhodes

The spirit in me  
Knows your soul will be free  
One alien has come, unalien to one  
Will they ever return  
To bring you back to where you belong?  
You'll find a place  
Of peaceful grace  
You've fought from the start  
For the road to all of their hearts  
Will they ever return  
To bring you back to where you belong?  
Baby I'm here and I've been quite an alien too  
I'm on a road that's parallel to you  
Baby I'm here and I've been quite an alien too  
I'm on a road that's parallel to you  
Your love's too pure  
And your motives too sure  
A society cannot stand  
A truly genuine man  
Will they ever return  
To bring you back to where you belong?

Baby I'm here and I've been quite an alien too  
I'm on a road that's parallel to you  
Baby I'm here and I've been quite an alien too  
I'm on a road that's parallel to you  
The spirit in me  
Knows your soul will be free  
One alien has come, unalien to one  
One alien has come, unalien to one  
Alien has come, unalien to one
