Show the proof and hide the evidence
Show the proof and you're sure to be happy
Show the proof

Show the proof and...

Ok
Everything I do is madness
Everything I say is neither here nor there
Well if I do exist
Then does it follow that I am
Who I am is who I mean to be

Show the proof and hide the evidence
Show the proof and you're sure to be happy
Show the proof
We will defend you no further
Show the proof and you're sure to be you

Show the proof and hide the evidence
Show the proof and you're sure to be you

This is the last time I should care
I've given you my doubts in all of my affairs
But there must be a moment now
For breathing and remorse
What I make, only I can own

Show the proof and hide the evidence
Show the proof and you're sure to be happy
Show the proof
We will defend you no further
Show the proof and...

I was young
I was free once
Nothing I could ever think to do
Was wrong
Then

Show the proof and hide the evidence
Show the proof and you're sure to be happy
Show the proof
We will defend you no further
Show the proof and you're sure to be...

Fine...
