

# The Chariot

Happy Rhodes

How can you just turn away  
My spirit fades each day you make me stay

God...here you come  
In your chariot  
Come to take me away  
Here with you  
The sun is brighter than it's ever been

But it's time to go  
I hope that you'll notice how I don't glow like you  
Please don't take me back

How can you just turn away  
My spirit fades each day you make me  
Hide my face in my disgrace  
I know there's life beyond this black embrace

How can you just turn away  
How can you turn away and leave me here  
My spirit fades each day you make me  
My spirit fades each and every day you make me stay  
Hide my face in my disgrace  
And hide my face in my disgrace  
I know there's life beyond this black embrace  
There's got to be another life beyond this black  
embrace

And face the truth for once  
Face the truth just once for me  
For me  
I'm just a child  
I promise I'll be sweet  
I promise I'll be sweet

I'm just a child  
I promise I'll be sweet

I'm just a child  
I promise I'll be sweet
