

To The Funny Farm

Happy Rhodes

I have a little stick of glass
With a blue and green universe
When I turn it upside down
Stars go back and forth
And round and round and
It's another world now
I think I'll go and look around for
Something for they teethies to bite
I can run and play with all my might
Close they eyes
I wake in much surprise
I run and jump on
Sunbeams dancing by

I see a little sparkle there
I'll wait and then fly through the air
Then find another subject of play
There's too much to see in just one day
I'm made for this terrain
Oh this or any other plane
Watch me go like fire
I will always burn
I'll never tire

Close they eyes
I wake in much surprise
I run and jump on
Sunbeams dancing by
Small and big
This body I fit in
Is full of life
And chasing flutterby

I have a little stick of glass
With a blue and green universe
When I turn it upside down
Stars go back and forth
And round and round
Oh close they eyes
I wake in much surprise
I run and jump on
Sunbeams dancing by
Small and big
This body I fit in
Is full of life
And chasing flutterby
