Waking Up

Happy Rhodes

We're waking up Yes it's good We're waking up Like I knew we would There's a breath of hope For everyone to share There's a growing force Of people who care In all the years of struggle It seems we're making way I have never been afraid to Change the circumstances Of the world Cobwebs everywhere It's time for a deep sweep We're waking up Yes it's clear We're waking up Dawn is here Feel the searing heat of Heightened consciousness Feel the yearning for Peace and happiness For all the times I've wished That we would finally Come around I have never been afraid To change the circumstances Of the world Cobwebs everywhere Time for a deep sweep We're waking up Yes it's good We're waking up Like I knew we would There's a breath of hope For everyone to share There's a growing force Of people who care In all the years of struggle It seems we're making way I have never been afraid to Change the circumstances Of the world Cobwebs everywhere It's time for a deep sweep We're breaking out of Cranium keep We're waking up After the sleep We're breaking out of Cranium keep We're waking up After the sleep We're breaking out of Cranium keep We're waking up

After the sleep
We're breaking out of
Cranium keep
We're waking up
After the sleep
Now
