

Help Me Please

Hard-Fi

There's no light in the hall
There's no sound here at all
Emptiness, emptiness rules
Why'd I wanna come home?

You ain't sat in your chair
No one calls, no ones there
Just a clock, tick, tock
Tears so many tears

Help me please, I'm in need
'Cause being alone scares the life out of me
Help me please, I'm in need
'Cause being alone scares the life out of me
Being alone scares the life out of me

Breaking down on the stairs
Hello, loneliness, hello, despair
All of this, all of it wrong
You won't ever come home

They can take what they please
They can take the blame
Everything, everything is free, have it all

Help me please, I'm in need
'Cause being alone scares thee life out of me
Help me please, I'm in need
'Cause being alone scares the life out of me
Being alone scares the life out of me
Being alone scares the life out of me
