

## It's So True

Hardcore Superstar

Some people always tend to fake  
Some people act so bad  
What really happened to our heads  
Imagination man

Let me just shine on  
Just like in that diamond song  
Shine on all of you  
That's when you know

CHORUS

Well it's so true  
There's really something wrong  
They fill you up with a thousand songs  
True  
There's really something wrong  
I wanna know, know what to do

Everytime I step into that game  
It fills me up with an awful taste  
This fantasy of broken hearts, let's pretend and play  
along

Let me just shine on  
Just like in that diamond song  
Shine on all of you  
That's when you know

CHORUS

Well it's so true  
There's really something wrong  
They fill you up with a thousand songs  
True  
There's really something wrong  
I wanna know, know what to do
