

Shame

Hardcore Superstar

Feels like yesterday since the took my lust away
Nothing really matters anyway
Bloodsucker her name, she's envy wrapped in
a frame
Affection 's no guarantee, say hello to my best friend
Mrs Jealousy

She will never ever be the one that I want
She will never ever be the one that I adore
She will never ever be the one

CHORUS:

Shame
Baptized by jailousy
Shame
It will always, always be the same
Shame
Handcuffed by misery
Shame
It will always, always be the same

Her legs are always crossed cuz she's taught to keep
them crossed
The new sensation, sexual gratification
Let me hear the sound of my smite when I land on your
thigh
No shame on me, it's up to you
Let the redness be my point of wiew

She will never ever be the one that I want
She will never ever be the one that I adore
She will never ever be the one

CHORUS
