## Sorry for the Shape I'm In

## **Hardcore Superstar**

Dead eyes I would like to see some light No surprise My touch goes out of sight I have to go I gotta see the sun Can't kill what has not begun Trouble starts in paradise

Time changes Rearrange my soul I feel strangled Now I dance alone

I'm sorry for the shape I'm in I'm sorry but I lost it friend I'll never see your face again There's no tomorrow No one to follow

Scuse me Darkness needs no light I see Your glories out of sight I gotta go I have to self destruct No more fuel I'm out of luck Shine on in paradise
