The Last Great Day

Hardcore Superstar

I hang around with you summer's almost gone Good attitude honey, I'm in a good mood Tell me once again, this is forever, my best friend

It took me time to get my hands on you Will take me twice as much to get over you Again and again you say
This could be our last great day

Eightynine, I'm in a love state Eightynine

CHORUS

Take me far from home, let's play all night Van Halen's on the radio, I feel alright Drink's a bit too strong but I got to hold on

Is this the real me or just an act Whatever, when it comes to you I feel perfect Tell me once again, this is forever my best friend

We had our first little fight, it's jealousy Her face turned red my face turned white Again and again I say Let's pretend it's our last day
