

Why Can't You Love Me Like Before

Hardcore Superstar

You never looked so good like that day in June and I
want you
And all of my friends say that we were meant and I
trust them
But now you say goodbye, for me is such a fight, come
on now
The difference is why and why can't I be with you, oh
my God

I said, Stop that, you are fooling yourself, let me be
your man

CHORUS

Why can't you love me like before
All my time now hurts like a wound
Why can't you and me just be together

I know you got your life and I sure have mine but I
want you
Remember those nights right after the fights how I
kissed you

I said, Stop that, you are fooling yourself, let me be
your man

CHORUS

Why can't you love me like before
All my time now hurts like a wound
Why can't you and me just be together

Tell me why

CHORUS

Why can't you love me like before
All my time now hurts like a wound
Why can't you and me just be together

Tell me why x4
