

## Before This

Hardline

It's all the same but the better part  
Standing in the dark and you know  
You know that it's better when I'm standing in  
solitude  
Standing here for you  
All alone you know that I'm here for you  
You know that I'm here for you

Sometimes it's all that I want to do  
Is to do it for you, so let's go, go on

It's the strangest things  
That make me want to scream at every word  
Who doesn't believe in what we have  
And on and on and on and on

Why'd you have to do this you had to leave this  
Your stupid reasons why you're not around  
Cut me to pieces cause I don't need this  
And all I need is what I had before this

When I look at you in photographs  
I want this to last  
And you know you know that I'm  
Always on the side that is wanting you  
Always rooting for you and you know  
You know that I'm here for you

This time I think that I need a break taking this  
away  
All alone, alone

It's the strangest things  
that make me want to scream at every word  
Who doesn't believe in what we have  
And on and on and on and on

Why'd you have to do this you had to leave this  
Your stupid reasons why you're not around  
Cut me to pieces cause I don't need this  
And all I need is what I had before this

It's another case of a waste of time  
Turn your head away and I'll take what's mine  
Doesn't matter what you say you're a waste of time  
Turn your head away and I'll take what's mine

Why'd you have to do this you had to leave this  
Your stupid reasons why you're not around  
Cut me to pieces cause I don't need this  
And all I need is what I had before this
