

## Fever Dreams

Hardline

The moon don't shine and I don't see my road again  
Where's the light at the end where is my life lost  
An ancient call, darkness fall around me  
Spirals and fire, you'd put me higher again.

Where am I now? What should I see beyond?  
No shining star to light my way home

Stone cold, heart of gold, set me free  
Dark night, poison bite, fever dreams  
Déjà vu I can't see through  
Leave me alone  
A later dawn, brightness gone  
Fever dreams

No edge on this town, only despair around  
No candle to burn, where should I turn?  
The day is gone and like a swan I sing my last song  
Devil's daughter awaiting your slaughter, you're lost

Where am I now? What should I see beyond?  
No shining star to light my way home

Stone cold, heart of gold, set me free  
Dark night, poison bite, fever dreams  
Déjà vu I can't see through  
Leave me alone  
A later dawn, brightness gone  
Fever dreams

Stone cold, heart of gold, set me free  
Dark night, poison bite, fever dreams  
Déjà vu I can't see through  
Leave me alone  
A later dawn, brightness gone  
Fever dreams
