

# Takin' Me Down

Hardline

Mama said you was a bad girl  
Since I set my eyes on you  
And who would think that I would sink  
In something that you would do  
Baby baby, you had a way  
To cover up your lies  
You took me down for the count  
But I never saw it in your eyes

And our love was cold  
It's my heart you sold  
And every night you hold on tight, girl you gotta let go

Cause you're takin' me down, girl, you're takin' me, takin' me  
Takin' me down, girl, with ya  
Takin' me down, girl, you're takin' me, takin' me,  
Girl you're takin' me

Now you say there's a better way  
That you just can't live without  
Take the money from my hands now honey  
Take the food right from my mouth  
You can say anything you want  
You can do all the things you do  
Well honey I hope you rot in hell  
For all the things you put me through

And our love was cold  
It's my heart you sold  
And every night you hold on tight, girl you gotta let go

Girl you're takin' me down  
You made the walls come crumbling down  
Girl don't kick me around  
Yeah you really, really love  
You really love to take me down, well oh yeah
