

Colors

Hardwell

Purple skies, vivid dreams
When you breath next to me
Now your heart's indigo
There's mystery that I wanna know

No more hurt here to feel
In the dark we can glow
Past the night, there's a field
Where the rainbows always shining down
Now we just gotta let em know
Yeah
Yeah, we just gotta let em know
Let it show
And we just gotta let em know
Yeah
Cause time waits for no one

So bring out your colors
Bring out your colors and make it bright
Turn up your colors
We gotta let them know
Let em know
Let em know

So bring out your colors
Bring out your colors and make it bright
Turn up your colors
We gotta let em know, let em know, let em know

We gotta let em know, let em know, let em know

We gotta let em know, let em know, let em know

Colors

Kaleidoscopes will appear
As we crash into love
Flashing lights as we ride
Leaving every fear we left behind

No more hurt here feel
In the dark we can glow
Past the night there's a field
Where the rainbows always shining down

Now we just gotta let em know
Yeah
Yeah, we just gotta let em know
Let it show
And we just gotta let em know
Yeah, yeah
Cause time waits for no one

So bring out your colors
Bring out your colors and make it bright
Turn up your colors
We gotta let em know, let em know, let em know

So bring out your colors
Bring out your colors and make it bright
Turn up your colors
We gotta let em know, Let em know, Let em know

Just bring out your colors
