## **Calm Before The Storm**

## **Harem Scarem**

You will drop down to your knees Bathe in the foul rain of defeat

Count up your blessings Choke down your pills Has God sent a message I can never tell

Is it the dark before the dawn Or just the calm before the storm

Am I sentenced to repeat Without a hope or destiny

Count up your blessings Choke down your pills Has God sent a message I can never tell

Is it the dark before the dawn
Or just the calm before the storm
If you believe that nothing's wrong
It's just the calm before the storm

Is it the dark before the dawn
Or just the calm before the storm
If you believe that nothing's wrong
It's just the calm before the storm
