

## Dark Times

### Harem Scarem

Black rain is falling down on me  
So hard that I can't see  
In the darkness around me  
I can't breath  
Sense have taken leave  
A hammer hitting me  
Until my will has surrendered

Drowning in anarchy  
Like a moth to the flame  
Dragging me into these

Dark times  
Good and evil waging war  
In these dark times  
Black rain will fall  
On you and me

Black rain  
Poured on the devil's seed  
Angels have taken leave  
In a cloud of hypocrisy  
Disgrace, unholy human race  
Is this the end of days  
Or just an omen of our fate

Drowning in anarchy  
Like a moth to the flame  
Dragging me into these

Dark times  
Good and evil waging war  
In these dark times  
Black rain will fall  
On you and me
