

Don't Throw It Away

Harem Scarem

We live in a world
Where delusion and apathy rule
It's so contagious
I think that I'm getting it too

Your conscience surrenders
It's all yours to lose

Blind to a miracle
Time is invisible
It's ticking away another day
We take it for granted
Don't throw it away

Blind to a miracle
Has life made you cynical
It's ticking away another day
We take it for granted
Don't throw it away

Running in circles
You're not really moving at all
You think that your climbing
You've already taken the fall

Your conscience surrenders
It's all yours to lose

Blind to a miracle
Time is invisible
It's ticking away another day
We take it for granted
Don't throw it away

Blind to a miracle
Has life made you cynical
It's ticking away another day
We take it for granted
Don't throw it away

We live in a world
Where delusion and apathy rule
It's so contagious
I think that I'm getting it too

Blind to a miracle
Time is invisible
It's ticking away another day
We take it for granted
Don't throw it away

Blind to a miracle
Has life made you cynical
It's ticking away another day
We take it for granted
Don't throw it away

Blind to a miracle
Time is invisible
It's ticking away another day
We take it for granted
Don't throw it away

Blind to a miracle
Has life made you cynical
It's ticking away another day
We take it for granted
Don't throw it away
