

Face It

Harem Scarem

Just when you think you've got it all
It turns out to be nothing at all yeah

Give me back the ring
And any other things that I've dished out

I don't wanna take this lying down
I don't wanna face it like it is
Emotions on display when I break down
I don't wanna face it

Your brilliant ways have shamed us all
That's why u still b working at the mall yeah

You're heading for the drain
Good-bye you little pain don't come around

Through tainted eyes we see love
And I prove it time and time again
And I knew I'm better off to be alone
And I lose a little more each day
