

# Give It To You

Harem Scarem

I face each day  
Knowing there's something I can't say  
Little lies never go away  
They always hide to come back  
One day  
It's only worse then

Sometime it's gonna get back to you  
That I've been doing something  
Yeah something so wrong

Did I pretend nothing wrong  
For so long that I believe that I really wanna be  
Here with you  
And all I know the dream is gone  
Oh yeah you want love but I'm never gonna give it to you  
I'm never gonna give it to you

The lies you ate  
Are plied up on to your plate  
And make this all worth nothing

Sometime it's gonna get back to you  
That I've been doing something  
Yeah something so wrong

Did I pretend nothing wrong  
For so long that I believe that I really wanna be  
Here with you  
And all I know the dream is gone  
Oh yeah you want love but I'm never gonna give it  
To you  
I'm never gonna give it to you
