

Give It To You

Harem Scarem

I face each day
Knowing there's something I can't say
Little lies never go away
They always hide to come back
One day
It's only worse then

Sometime it's gonna get back to you
That I've been doing something
Yeah something so wrong

Did I pretend nothing wrong
For so long that I believe that I really wanna be
Here with you
And all I know the dream is gone
Oh yeah you want love but I'm never gonna give it to you
I'm never gonna give it to you

The lies you ate
Are plied up on to your plate
And make this all worth nothing

Sometime it's gonna get back to you
That I've been doing something
Yeah something so wrong

Did I pretend nothing wrong
For so long that I believe that I really wanna be
Here with you
And all I know the dream is gone
Oh yeah you want love but I'm never gonna give it
To you
I'm never gonna give it to you
