

# Give Love/Get Love

Harem Scarem

When life is coming to the end  
I want nothing to regret

Like a sinner forgiven  
Solitude confines me  
My prison won't hold me long

'Cause I know how to leave  
(Give love, get love)  
You'll only find greed destroys you  
(Give love, get love)  
There's more to life waiting for you  
(Give love, get love)  
Will glorify fame and fortune  
(Give love, get love)  
There's really something in it for you

I know it's hard to see through the rain  
But somehow the sun finds you again

Like a sinner forgiven  
Solitude confines me  
My prison won't hold me long

'Cause I know how to leave  
(Give love, get love)  
You'll only find greed destroys you  
(Give love, get love)  
There's more to life waiting for you  
(Give love, get love)  
Will glorify fame and fortune  
(Give love, get love)  
There's really something in it for you

First you find the one  
Then love will find a way  
To open up the door  
To meaning from a higher place  
It's all out living for today  
Clear skies never go away  
'Cause love is here to stay

Like a sinner forgiven  
Solitude confines me  
My prison won't hold me long

'Cause I know how to leave  
(Give love, get love)  
You'll only find greed destroys you  
(Give love, get love)  
There's more to life waiting for you  
(Give love, get love)  
Will glorify fame and fortune  
(Give love, get love)  
There's really something in it for you  
(Give love, get love)  
(Give love, get love)

(Give love, get love)

(Give love, get love)

(Give love, get love)

(Give love, get love)

There's really something in it for you

There's more to life waiting for you

There's really something in it for you
