

## Headache

## Harem Scarem

When I retrace the lines that got me here  
I find a face that's all just smoke and mirrors

We're alone living like two shadows  
All in all I live in yesterday  
I'm afraid it's gone

You're killing me every day  
Couldn't pay me to stay  
Ooooh  
The enemy the anti-c  
Now I know how you be

Clear the way for loneliness and fear  
The idle flames been burning out for years

We're alone living like two shadows  
All in all I live in yesterday  
I'm afraid it's you  
You're killing me every day  
Couldn't pay me to stay  
Ooooh  
The enemy the anti-c  
A headache that I don't need
