

## Lost

## Harem Scarem

No time to lose  
Holding back the years  
You're turn to choose  
Happiness or tears  
Can't find the truth  
Burning down the day  
All that we do  
Somehow slips away

On the line  
Far to blind to see

If you get lost on your own road  
Wait and you'll find me  
If you get lost and you don't know where to go  
Just wait and you'll find me

It's all up to you  
No matter what they say  
Now I believe in you  
That will never go away

On the line  
Far to blind to see

If you get lost on your own road  
Wait and you'll find me  
If you get lost and you don't know where to go  
Just wait and you'll find me

All the love  
More than enough  
So don't give up  
On you and me

On the line  
Far to blind to see

If you get lost on your own road  
Wait and you'll find me  
If you get lost and you don't know where to go  
Just wait and you'll find me
