

More Than You'll Ever Know

Harem Scarem

You played what seemed to be
A pawn who played the queen
We chant and knelt in turn
Persuades us to believe
That the smoke that's in the breeze
Won't stale our breath and word
All in all, these little things
That used to bring me comfort
Now just feel so real and wrong
I'm blue
More than you'll ever know
More than you'll ever know
I've been reaching for the cold demise
More than you'll ever know
It's more, winning every prize
Radiate the need
From the cesspools made by greed
'Til the truth and flesh has heard
Now fate just seems to be
A wound that never bleeds
Now the world at rest is one
All in all, these little things
That used to bring me comfort
Now just feel so real and wrong
I'm blue
More than you'll ever know
More than you'll ever know
I've been reaching for the cold demise
More than you'll ever know
It's more, winning every prize
More than you'll ever know
I've been waiting for, been waiting for
Now I'm winning every prize
More than you'll ever know
It's more, winning every prize
