

## New Religion

Harem Scarem

Apologize for stupid old mistakes  
Your only vice disappears without a trace  
Your mystified  
You can't relate  
Your on your knees to follow the new faith  
I'm starting my own religion  
Demi Gods  
They'll be none  
After all demons fall we'll be done  
Sink your teeth into the golden prey  
You won't believe the souls we saved today  
You won the prize  
It's no debate  
Your on your knees to follow the new faith
