

No Doubt

Harem Scarem

Hold tight it's alright
Just enjoy the ride no time to let it get you down
Try to see from all sides
'cause turn around

And life doesn't com with a map to show you
You gotta figure it out for yourself

And if you lose your way
You may be late but you will find
The light of another day is all you need
To clear your mind
And somehow you work it all out
Like there was ever a doubt

Rewind your mind
Time to slow it down
Take a look at what you found
Maybe if the sun shined all the time
you'd never enjoy the cloud
