

Nothing Without You

Harem Scarem

I will rise above
It all for a minute
Love is just a four
Letter word I regret
You hold the key

The candlelight of us
Is a shadowed image
Now I'm in the dark
And the cold came with it
You hold the key

When I think through
What I can loose
I won't let it go

It's hard to walk away
I'll pay the price, I'll sacrifice
Untill my dying day
I'm strong enough to say
I'm nothing without you
I'm nothing
Without you

Holding onto dust
Am I loosing my grip
Diamonds turn to rust
While the shine is dimming
Your ghost won't leave

I remember us
In control for a minute
Now I'm in a world
Where the pieces won't fit
Your ghost won't leave

When I think through
What I can loose
I won't let it go

It's hard to walk away
I'll pay the price, I'll sacrifice
Untill my dying day
I'm strong enough to say
I'm nothing without you
I'm nothing
Without you

I'll carry on
Wearing my heart out on my sleeve
For all the world to see, yeah
I will stand tall
Showing I'll bend but I won't break
I'll rise up through it all, oh, yeah

I'll pay the price, I'll sacrifice
Untill my dying day

It's hard to walk away
I'll pay the price, I'll sacrifice
Untill my dying day
I'm strong enough to say
I'm nothing without you
I'm nothing
Without you

It's hard to walk away
I'll pay the price, I'll sacrifice
Untill my dying day
I'm strong enough to say
I'm nothing without you
I'm nothing
Without you
