

Outside Your Window

Harem Scarem

Got your hands tied
Yet you're free
To take chances
And to dream
Never sold out
Never preached
Are you God's Child?
Are you greed?

Wherever you go time follows
Heartache still reigning over you
Life's a snake
All full of teeth
That has swallowed me
Yeah all of me
Ain't it funny how the
Highs and all the lows
Just outside your window
Ain't never gonna change
So you better fly
Or you'll fade away

Poisoned your mind
To believe
That you won't find
Inner peace
On the dark side
Under siege
There's no view unless
You lead
