

This Ain't Over

Harem Scarem

You've been in love
For your whole life
You don't look back or pretend
Never think about the end
It's gonna be a long ride
Then you think of better days
And they're coming
Coming around your way

I'm holding on
To all I can
A falling star
Wondering where to land
I don't wanna leave it alone
I'll tell you this ain't over
And although I fear the unknown
I tell you this ain't over
It ain't over at all
Only one thing on my mind
Is to keep us from the edge
Maybe come down from the ledge
Let the sun
Shine as your guide
It will light you through the grays
And be sure you find your way
