

## Whatever I Want

Harem Scarem

It's a complicated story  
I'm not sure I understand  
About a hole in my mirror where I used to stand  
I spent years as a killer  
Of my dreams and desires  
All my words that had fallen  
Now take everyone by surprise

Tired of being the only one who never takes

Whatever I want what ever I need  
I'm gonna try to fill the hunger  
When I crawl on my knees  
I'll never ride the wings of thunder

Don't know where I got the notion  
That I had a life  
But now the wheels are in motion  
And I'm never gonna think twice  
Well I think I hear it calling  
I better run I better hide  
All for a sticky situation  
I'll need a miracle to get out alive
