

## Cannot Let You Slip Away

Harmony

As I watch you slide away  
I cannot let you slip away  
But I know now nothing I say  
Will make you come back to me  
Baby it's you  
Who I'm devoted to  
Please don't go away  
Cause I don't believe that deep down  
You really don't wanna stay  
And as I watch you slide away  
I cannot let you slip away  
But I know now nothing I say  
Will make you come back to me  
Baby it's me  
Who's always loved thee  
Come back to me  
Cause I can't believe for one second  
That you're gonna leave me  
And as I watch you slide away  
I cannot let you slip away  
But I know now nothing I say  
Will make you come back to me  
Baby it's you  
Who I'll always be true to  
Just say you'll stay  
Cause if you go away I'll lose my mind  
And I will go astray  
And as I watch you slide away  
I cannot let you slip away  
But I know now nothing I say  
Will make you come back to me  
As I watch you slide away  
I cannot let you slip away  
But I know now nothing I say  
Will make you come back to me
