Cannot Let You Slip Away

As I watch you slide away I cannot let you slip away But I know now nothing I say Will make you come back to me Baby it's you Who I'm devoted to Please don't go away Cause I don't believe that deep down You really don't wanna stay And as I watch you slide away I cannot let you slip away But I know now nothing I say Will make you come back to me Baby it's me Who's always loved thee Come back to me Cause I can't believe for one second That you're gonna leave me And as I watch you slide away I cannot let you slip away But I know now nothing I say Will make you come back to me Baby it's you Who I'll always be true to Just say you'll stay Cause if you go away I'll lose my mind And I will go astray And as I watch you slide away I cannot let you slip away But I know now nothing I say Will make you come back to me As I watch you slide away I cannot let you slip away But I know now nothing I say Will make you come back to me
