

# Eternity

## Harmony

Someone told you there's a paradise  
An afterlife in peace, where no one cries

Can it be there is a place beyond the skies?  
Is this the truth, or the greatest among lies?

Someone told you there's a place called hell  
An afterlife in darkness, there to dwell

When you're buried six feet deep into the ground  
By whom will your soul be found?

Eternity  
Where do you wanna be?  
You must face the truth to see  
Eternity  
Waits for all of thee  
Just one man can set you free

Someone told you there's a man called Christ  
Come to earth in love to save our lives (He said)

There's a way to paradise and it's through me  
Not your works, only I can set you free

Eternity  
Where do you wanna be?  
You must face the truth to see  
Eternity  
Waits for all of thee  
Only Christ can set you free

We are all heading for eternity
