Have a man named Jim and they dance until the moon

He left her at the station in the pouring rain
Then she asked him if she'd ever see him again
He said she could find him on the first of after maine

Sometimes the dude gets the chuck in her head
Still smells of smoking on rose
With the ring on her finger when she lies on her bed
Still have her dance on her toes (2x)

He left her at the station in the pouring rain
Then she asked him if she'd ever see him again
He said she could find him on the first of after maine
