Stay Awake

Harry Connick, Jr.

Stay awake, don't rest your head Don't lie down upon your bed While the moon drifts in the skies Stay awake, don't close your eyes

Though the world is fast asleep Though your pillow's soft and deep You're not sleepy as you seem Stay awake, don't nod and dream Stay awake, don't nod and dream

Though the world is fast asleep Though your pillow's soft and deep You're not sleepy as you seem Stay awake, don't nod and dream Stay awake, don't nod and dream
