## **Easier for Me**

## **Harry Nilsson**

Nobody loved her, it was easy to see That made it easier for me The boys never fought over her company That made it easy for me

Love so bright could only blind us How could reason hope to find us Hiding in the Milky Way Without a star to shine the way?

Sandcastles fell from the tears in our eyes That made it easier to see Now the dream's over and I realize That makes it easy for me
