

I'll Never Leave You

Harry Nilsson

Some nights I go to sleep without you
The river's far too deep without you
I can't make it alone, I need you by my side.

Some nights I spend alone without you
The river's far too wide without you
I can't make it alone, I need you by my side.

I'll never leave you alone,
I'll never leave just a memory.
I'll never leave you alone in the garden
Where nothing grows.
I love you so much baby.

I'll never leave you alone,
I'll never leave just a memory.
I'll never leave you alone in the garden
Where nothing grows.
I love you so much baby.
