I'll Never Leave You

Harry Nilsson

Some nights I go to sleep without you The river's far too deep without you I can't make it alone, I need you by my side.

Some nights I spend alone without you The river's far too wide without you I can't make it alone, I need you by my side.

I'll never leave you alone, I'll never leave just a memory. I'll never leave you alone in the garden Where nothing grows. I love you so much baby.

I'll never leave you alone, I'll never leave just a memory. I'll never leave you alone in the garden Where nothing grows. I love you so much baby.
