

# I've Got It!

Harry Nilsson

say.. Fox? Where you walking?  
what you mean? You want do some business?  
uh- huh  
well lets check it out  
All right!  
I've got it  
Got it!  
Right down here in your hole in my pocket  
I've got it!  
Got it!  
It's down to the green in your wallet  
It's mine to give and I'll give it away  
And you can't just pay enough  
For the time it takes to make me yours  
It's mine to give  
It certainly isn't yours

I've got it!  
Got it!  
It's right down here  
And it's just where you want it.  
I've got it!  
Got it!  
Keeping it under a key and locket.  
It's mine to give to whomever I choose  
And no one can lose  
And you just can't pay enough  
For this wonderful stuff I use  
Can't cover my dues  
First you spread your two knees open wide  
Think of England, left come inside  
I've got it  
Got it!  
I can tell by the bulge in your pocket  
You've got it!  
Got it!  
Keeping it under a key and locket.  
I can't afford what you want to pay  
But I am here to say it's a lovely day.  
Yes I am here to say it's a lovely day  
But I don't love you  
Now let's get straight to the point  
Got no time to mess around with you  
Listen! You know the routine  
Put it in the nightstand  
Four hundred  
Oooooooooo oooo o o oo o o o o  
Well alright then  
Got change for a twenty  
You know I've got it  
I got it!  
It's down here in your hole in my pocket  
Now it's down to the green in your wallet  
It's mine to give  
And to give it away  
But you just can't pay enough for me  
Because You know what I've got

I mean I think you know  
I mean if I like you that's one thing  
But this ain't gonna be no freebee  
I don't want you to get all happy inside  
And not pay for this ride  
Do you know what I mean?  
Say would you like to here Tenderly  
Well that's different Now  
Hey, I like the color of your stuff  
Now that these business transactions are over  
We can begin  
Well my goodness!  
Will you take a look at that  
Wooooooo  
All shiny and purple and everything  
It's getting larger by the minute  
Hey you know something  
On second thought  
I think I would greatly appreciate it  
If you put that thing away  
Or put it someplace else  
What if I gave you five dollars just to leave this room  
I mean ah..  
Hey! Listen! I am not just kidding around  
I've got some friends downstairs and they got it.  
You know what I mean?  
Pretty soon there will be a knock on the door  
And nah nah nah nah nah and you know you'll be in for something  
Hey! Now don't get to friendly. Hey! No! Wait!
