

Sweethaven

Harry Nilsson

Sweet Sweethaven
God must love us
We the people
Love Sweethaven
Hurray hurray Sweethaven
Flags are wavin'
Swept people from the sea
Safe from democracy
Sweeter than a melon tree
Put here for you and me
Sweethaven
Sweet Sweethaven
God must love us
We the people
Of Sweethaven
God must have landed here
Why else would he strand us here
Where the air is nice and clear
Sweethaven even sounds so near
To Heaven
God will always bless Sweethaven
God will always bless Sweethaven
God will always bless Sweethaven
