

Cream and Bastards Reprise

Harvey Danger

That's right. I got on that job bro too.
And that's all the thanks I need.

We know you have a choice of airline carriers
And we're very thankful that you chose...
This airline. Whatever it is.

You know, summer's coming...
And every summer it's important to eat a lot of fruit.

All right.
We know of the small growth.

Sweet Jesus,
I thought we were rolling.

You're doing everything ya people said to.
I'd hate to be the one to break it to you-who.
It's only sad 'cause it's true.
They misled you when they breh-heh-hed you.

You don't have to be a genius,
But it helps to. it helps too-oo-oo.
Fools and charlatans, they may get wise;
But only cream and bastards rise.
Yeah, you could see it in their ah-ah-ah-eyes (Woo!).

(ta-ta-ta!)

Ya follow good advices to the letter.
You know your friend,
He's doing so much better than you
Are ever likely to do. He'll eclipse you,
But he will not miss you (no).

You don't have to be a genius,
But it helps to. It helps too-oo-oo.
All the also-rans are real nice guys,
But only cream and bastards rise-hise.

People who could buy and sell you.
Sharing a joke no one will ever tell you.
You think you're dialed in. Someone has to win,
And you know what that means;
It means someone's got to lose.
It's probably you. A-whoa-ho-ho-ho.
It's probably you. A-whoa-ho-ho-ho-ho-ho.

I love this kind of,
Hot kind of music.

It's not a race. it's not a competition.
And if it were, you'd be in no position to
Get anybody to listen to you, if you had to.
Not even if you had to!
Not even if your ever-loving life depended on it!

You don't have to be a genius,
But it helps to. It helps you-oo-oo.
Some are aliens. The rest are spies,
But only cream and bastards rise.
Yeah, you could see it in their ah-ha-ha-hise.
ah-ha-ha-ha-hise.

You could see it in their eyes.

Thank you, President Hoova'!
