

## This Time It's Real

Haste the Day

The romance lives on inside  
Here I am again  
Put this ring around your finger  
Can you trust me?  
I've hurt so many  
I am real this time  
I've said I love you  
Will you trust me?  
Deceived and broken  
So many hearts  
I'm scared of falling  
Failing you, my dear  
I know I'm weak  
I know I'm broken  
Your beauty is in my heart  
Your beauty keeps me walking on  
I will hold you forever my love  
This promise is real  
Deceived and broken  
So many hearts  
It's in the past now  
This love is real  
I've said it before, but this time it's real  
Forget the past, it's gone  
Believe me when I say that you're the one  
That you're the one now  
Forget the past, it's gone
