

# Proclamation Of The Damned

Hate Eternal

Proclamation of the damned  
I beseech thee  
May I leave thy mark of the beast

Shall my cries fall upon deaf ears  
Whilst I graze upon the eternal sea  
Must we atone for our sins in death  
I have seen death

Therefore I share not in your fears  
Yet must we confront our judgement  
Thus the eternal damnation of thee  
I have no fears

Proclamation of the damned  
I beckon thee  
May I flourish in darkness

Proclamation of the damned  
I beseech thee  
May I leave thy mark of the beast

Am I destined to ashes bound to dust  
Whilst I pass through the corridor of death  
Shall I disburden the ones left behind  
I now know death

Brazen in my calling, my descent  
Banished for all of eternity  
Thus the eternal damnation of thee  
I know no fears

I will deify the gods  
Arisen from the depths unknown  
Upon my descent into bliss

I must now shed my kin  
Escape from this moral shell  
Into the passage way of death

I summon thee, pray for the winds  
I beckon thee, pray for the storms  
I call upon thee  
I am the heretic of the ages

I summon thee  
I am the heretic of the ages  
I summon thee, pray for the winds  
I beckon thee, pray for the storms

I call upon thee  
I am the second coming for the ages  
May I flourish in the darkness

Proclamation of the damned  
I beseech thee  
May I leave thy mark of the beast
